LISTENING 5 - 8 min

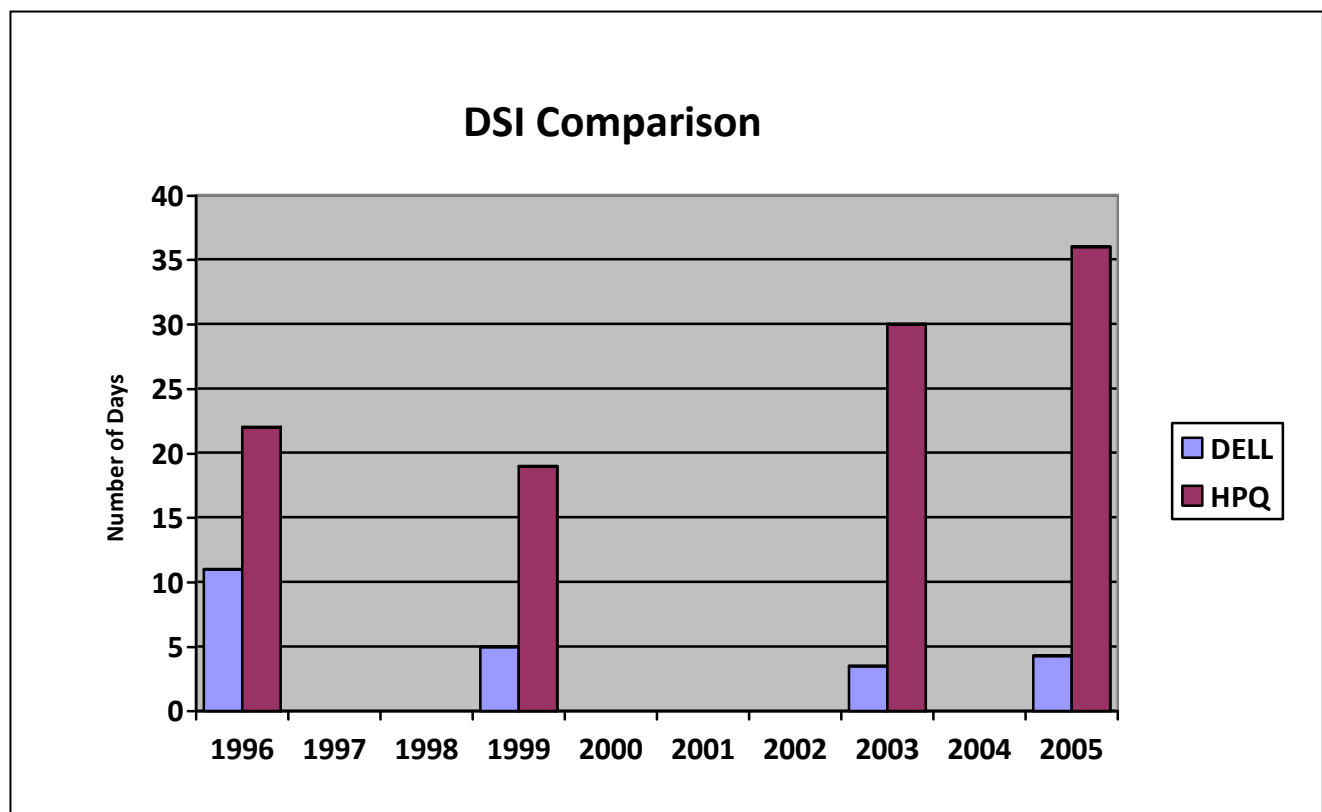

1. Before listening :

The graph presentation you will hear is about DSI (days of sales in inventory).

It is a financial measure of a company performance giving an idea how long it takes a company to turn its inventory into sales. Ususally the lower DSI the better. Note that the average DSI from one industry to another varies.

To calculate it :
$$DSI = \left(\frac{\text{Inventory}}{\text{Cost of sales}} \right) \times 365$$

2. Listen and complete the graphic.
